

Activity Tables

Model#: ELR-0559 – 0624
ELR-0703 – 0710
ELR-0729

⚠ WARNING:

Adult Assembly Required.

Two adults recommended.

- Contains small parts, sharp points and edges.
- Do not stand, sit, kneel, climb, lean or pull on unit for support.
- Never leave children unattended.
- Do not place unit near high heat or moisture.
- Adult Supervision Recommended.

NOTE:

A Phillips Screwdriver and a Rubber Mallet may be needed for assembly (not included)

Parts List

BEFORE ASSEMBLING, MAKE SURE THERE ARE NO MISSING PARTS.

A Table Top

Product Sticker located on underside

B Upper Leg Support (4)

C Lower Leg Extension (4)

D Phillips Screws (12)

E Hex Screws (8)

F Hex Tool

1 Install the Legs into the Receiver Plate

Place **Table Top (A)** face down, on a carpeted or protected surface to prevent scratches.

Slide base plate of the **Upper Leg Support (B)** under the lip of the receiver plate, until the pilot hole is visible through the center hole in the leg base plate.

The fit should be tight and may require the use of a rubber mallet to properly seat into the receiver plate. If needed the receiver plate screws may be loosened to allow more clearance. Remember to re-tighten after the base plate is installed.

2 Aligning & Attaching the Legs

Once the pilot hole is aligned with the center hole in the leg base plate, use three **Phillips Screws (D)** to secure the leg base plate to the table.

DO NOT FULLY TIGHTEN SCREWS UNTIL ALL SCREWS HAVE BEEN LOOSELY POSITIONED.

Tighten all screws firmly by hand with a Phillips screwdriver.

Do not use power tools as the screw holes can be stripped from over tightening.

Repeat for each table leg.

3 Leg Height Adjustment

Insert **Lower Leg Extension (C)** into the **Upper Leg Support (B)** and line up the holes for the desired table top height as shown.

Secure each leg with two **Hex Screws (E)** using the **Hex Wrench (F)**.

NOTE: Only 1 Hex set screw to adjust.

! CAUTION:

- Do not climb on table.
- Do not use as a ladder or seat.
- Do not stand, sit, kneel, lean or pull on unit for support
